If you have any other purchase list, you can also send it to me, I will apply for the preferential price for you.

Note: It is not allowed to falsely report and exaggerate the order quantity during the communication process. After applying for the preferential price, only purchase the very small amount quantity in the end. Our quotation is a preferential policy for one-time purchase, and multiple cumulative purchases and cooperative purchases are not supported. During the inquiry, we need to know your real purchase quantity. Avoid the illusion of price increase due to changes in the final quantity.

Thank you,

Anna Kliner
